Traditional Cycle Shelters

These shelters provide storage and security with a screened appearance for landscaped sites. Selected shelters can also be used for mixed parking of both cycles and motorcycles by fitting bike racks in one section. See pages 7 & 8 for our full bike rack range.

- Robust all-weather construction
- Choice of galvanised or powder coated sheet steel side & back panels
- Adjustable feet for on-site positioning
- Parabolts for surface mounting included. Must be bolted to 250mm thick concrete for stability
- Site survey and erection service available
- Perforated panels are supplied light grey as standard
- Cycle racks sold separately - see p.7

Round-a-Tree Bike Racks

These innovative cycle racks permit the creation of bike parking areas in unusual places, such as round a tree or pole. The larger racks are circular, while the smaller ones are square. Both styles are supplied in 2 halves for easy assembly.

- Available in different sizes to provide parking for up to 24 bikes
- All racks mount to the ground not the tree
- Easy access for cyclists from all directions
- Can also be fitted round poles, bollards and posts
- Welded construction, made in 2 halves with simple instructions
- Constructed from mild steel, powder coated exterior grade black

Indoor Vertical Bike Racks

For space-saving bike storage indoors, here is a range of Vertical Bike Racks. These have an innovative and patented mounting hoop that secures the bike in a vertical position. This saves 35-45% of the floor space required if bikes are stored horizontally and avoids the common problem of bikes leaning against each other.

Vertical Racks are ideal for storing bikes, when space is at a premium.

A Vertical Bike Wall Loop

- Simple cost effective means of storing one bike vertically
- Patented hoop mechanism holds bike securely in place
- Clothes hook and chain included (padlock not included)
- Simple self assembly required
- Saves floor space
- Supplied with wall fixings

Vertical Bike Wall Loop	
Code	Price
SRAWALLHOOPS	£88.00

B Single Sided Vertical Bike Rack

- Simple cost effective means of storing one bike vertically
- Patented hoop mechanism holds bike securely in place
- Ramp to ensure rear mudguard does not touch ground
- Simple self assembly required
- Saves floor space
- Supplied with rawl bolts to fix to ground

Single Sided Vertical Bike Rack	
Code	Price
SRAVERTRACKS	£183.00

C Double Sided Vertical Bike Rack

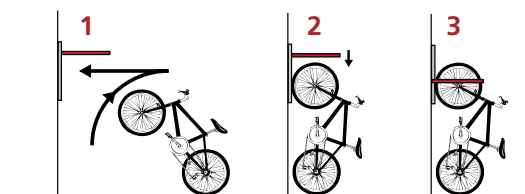

- Simple cost effective means of storing two bikes vertically
- Patented hoop mechanism holds bike securely in place
- Ramp to ensure rear mudguard does not touch ground
- Saves floor space
- Supplied with rawl bolts to fix to ground

Double Sided Vertical Bike Rack	
Code	Price
SRAVERTRACKD	£245.00

QUICK AND EASY OPERATION

- 1 Ensure wheel-mounting hoop is at top of runner, apply rear brake and pull handlebars back until bike is vertical
- 2 Free-wheel bike forwards. When bike meets wall, wheel hoop slides down over front wheel to hold bike
- 3 Secure bike with chain provided (dependant on model)

Outdoor Vertical Bike Lockers

Vertical Bike Lockers are a revolutionary new way of storing bikes securely. They come with an innovative patented mounting hoop that allows the bike to be parked upright. As the bike is vertical, 35-45% of floor space is saved compared with horizontal cycle storage.

Bike Lockers provide space and security not only for your bike but for your cycle clothing, helmet and luggage as well.

- Innovative space saving design that stores the bike vertically on its rear wheel
- Fitted with a patented mounting hoop that uses gravity to hold the bike upright
- Completely encloses the bike protecting it from thieves, vandals, the weather and bird strikes
- Manufactured to the Quality Cycle Locker Standard devised by the Bike Parking and Security Association (BPSA) to meet planning application requirements
- Constructed from heavy duty galvanised steel, powder coated green. Other colours are available on request, subject to minimum order requirements
- Comes with disc padlock and three 10mm bolts for mounting into concrete
- Space to store a helmet and cycle gear inside

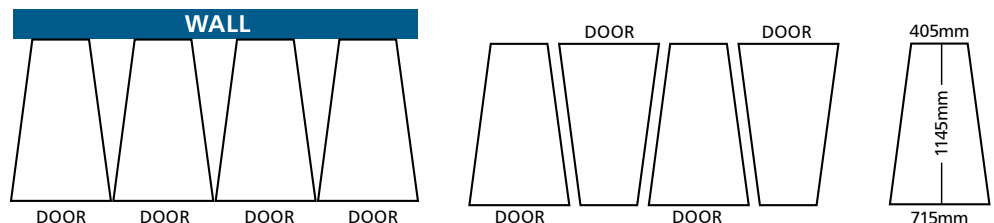

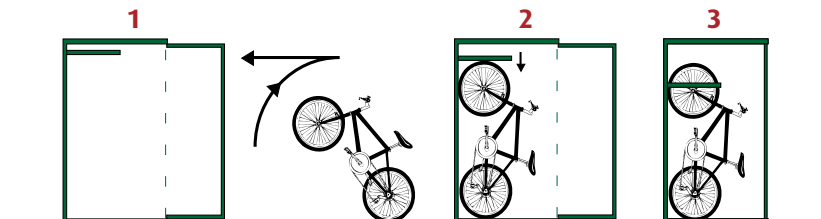

Outdoor Vertical Bike Locker

Size H.W(Front)W(Back)D.	Code	Price
1830.715.405.1145	SRAVERTLOCKR	£850.00

QUICK AND EASY OPERATION

- 1 On approach, ensure wheel-mounting hoop is at top of runner. Apply rear brake and pull handle bars back until bike is vertical. Free-wheel bike into locker
- 2 When bike meets back of locker, wheel hoop slides down over front wheel to hold bike
- 3 Close locker door and lock with padlock provided

Lockers can be lined up against a wall or positioned nose to tail for maximum use of available floor space

The Bike Parking & Security Association (BPSA) was set up by the Department of Transport to devise standards of cycle parking. To conform to the BPSA Quality Cycle Locker Standard, a locker must:

- Be easy and convenient to use
- Be easy to clean and maintain
- Protect the cycle by fully enclosing it
- Not cause damage to the bike, user or others
- Protect the cycle from extreme weather
- Resist forced entry for minimum of 2 minutes
- Withstand vandalism including kicking
- Accommodate 90% of bike designs

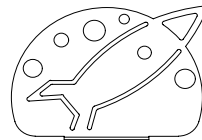

"Rocket" Bike Rack

- A bike stand for 1 or 2 bikes in the shape of a rocket flying through space
- Made from tough 8mm thick steel
- Powder coated black for scratch and weather resistance
- Supplied with four fixing bolts for mounting onto concrete

Rocket Bike Rack

Size H.W.	Code	Price
855.1190	SQROC85311AX	£280.00
