**Safety warnings follow on next page...**

**Warning:**

Please make sure to unplug unit from socket before moving. If trolley unit is to be used on an uneven floor ensure the locking castors are activated.

All media charging lockers are only designed for the use of charging Laptops\*, maximum 5 amps per device. Do not plug any other appliances into any of the sockets

Do not allow any liquids to be stored within the compartments, or on top of the lockers.

The unit and its electrical cables and components should be regularly inspected for damage and wear, any defects

- Don't remove a plug from a power point by pulling on the cord, pull the plug instead.
- Never plug adaptors into adaptors and avoid using adaptors filled with plugs where possible.
- Do not use items with damaged cords so that the wires are exposed. Either repair or replace items regularly.
- Do not use damaged sockets, replace with care when necessary.
- Always turn the power off at the mains if carrying out any electrical repairs and only attempt repairs if you know what you are doing.

**Laptop\*** is a generic term but includes other smart devices including Net Books, Tablets etc.
