

Trimline Garment Racking

Commercial grade racking units for clothing items
 Assembles in minutes – no nuts, bolts or rivets
 Extra strong E-Z-Rect frames
 Includes feet and top caps
 Outboard or Inboard racks in 2 & 3 tier configurations
 Available as starter bays and add-on extensions
 Extra rails can be added for small garments
 Shelf levels can be easily added in if required
 Rail heights adjustable in 25mm increments

Inboard garment racks provide a single rail storage solution that retains the clothing within the size of the unit. **Outboard** racks provide twice the capacity with dual rails but clothes hang out into the aisle space on both sides.

Extensive range of sizes:

Heights: 1830, 2135, 2440mm

Widths: 915, 1000, 1220mm

Depths (Inboard): 457mm

Depths (Outboard): 457, 610mm

Note: for overall widths please add 40mm per post

3 Tier Outboard Racking

2 Tier Inboard Racking

Bespoke units also available to suit your requirements, including high density mobile garment racks.
